BCA Graduate building full stack web applications with React, Node.js, Express and MongoDB. Experienced in REST APIs, state management, and web application performance optimization; seeking a full-stack developer internship.

EDUCATION

Bachelor of Computer Applications (BCA) **2023–2026**

Himachal Pradesh University (HPU) | CGPA: **6.78/10**

- **Relevant coursework:** Data Structures and Algorithms, Object-Oriented Programming (C, C++), Database Management Systems, Software Engineering, Web Development.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), HTML5, CSS3
Development:	React.js, Node.js, Express, REST APIs, responsive interfaces
Databases:	MongoDB, Mongoose fundamentals
Tools & testing:	Git, GitHub, Postman, Vercel, VS Code, npm

SELECTED PROJECTS

Movie Search Application **Personal Project**

React project | React.js, REST API, HTML5, CSS3

- Developed a fully responsive movie discovery web application integrating external Movie Database REST APIs for dynamic search and ratings display.
- Implemented dynamic loading indicators, asynchronous API fetching, and robust client-side error handling for seamless user interaction.
- Optimized component architecture and state management routines to eliminate unnecessary re-renders and enhance application load performance.

Note Management Application **Personal Project**

React project | React.js, HTML5, CSS3, CRUD State Management

- Built an interactive note-taking application implementing complete **CRUD (Create, Read, Update, Delete)** functionality.
- Designed clean component states and modern UI layout structures to optimize user workflow and note organization.
- Implemented interactive UI feedback, real-time input handling, and sleek navigation controls for improved workflow usability.

TECHNICAL PRACTICE & COLLABORATION

- Maintained structured Git repositories with regular commit histories, feature branching, and clean project documentation via detailed READMEs.
- Practised debugging, REST API testing using Postman, and dynamic state manipulation across React project architectures.

ADDITIONAL INFORMATION
